Topstarter in ICT Applications & Datascience

Planet Talent is looking for a conscientious topstarter in IT Applications & Datascience. Find out here if you fit the bill and whether Planet Talent could be your ideal workplace!

Where will you be working?
Do you want to excel right from the start of your career? As a topstarter, you’ll find the perfect framework at Planet Talent. You’ll execute projects for and at renowned companies, with support from a professional coach. And you’ll attend intensive bootcamps and targeted trainings. Your gain? Progress at twice the speed of your peers.

Each year, Planet Talent hires the biggest talents in IT, sales and management. These talents are then rocket-launched into the business world. After a couple of years, topstarters are ready to leave Planet Talent and take on a new challenge at a leading company.

What will your days look like?

- You analyze (big) data and/or business processes and set up designs.
- You develop software applications, to automate business processes and/or to manage (big) data.
- You are responsible for the quality control of software through unit tests.
- You keep software up to date and implement changes.
- You write the software documentation.
Which assets and skills do you bring to the table?

- You have a bachelor or master's degree in IT.
- You know several programming languages (at least Java and/or C#) and you know your way around a series of platforms and environments.
- You know about databases, data warehousing and artificial intelligence.
- You hold a category B driving license and are okay with working in another city.
- You go about your work meticulously and you are very organised.
- You love to reach goals as a team.
- You show proactivity and initiative in client relationships.
- You are fluent in English and Dutch or French.

What’s in it for you?

- You will receive a permanent contract.
- You will earn a fair salary that will continue to reflect your performance.
- You will enjoy extra-legal benefits such as a company car, hospitalisation insurance, a daily allowance, etc.
- You will expand your knowledge continuously, thanks to dedicated training programmes and personal coaching from experienced mentors.
- You will take on challenging projects for clients that believe in you.
- You will share experiences with like-minded topstarters in IT.
- You will be ready to take your next step on the career ladder in no time.

How to apply?
